18. **for loops:-** repetation of some steps under certain conditions is satisfied.

Syntax:-   for (i=0;   i<5;   i++){

initialization   condition   incr/Decr

19. **for loops:-**

Flags, Booleans, array length, And loopus interruptus:-

Flags meen if we change true value to false and false value to true. If conditions satisfied in loops.

Booleans mean true and false.
value are store in Boolean
datatypes.

array length mean when we pass
array length to a loop.

var arr = [5,6,7,1,2];

Syntax:- var newArr = arr.length;

```
for (i=0; i<newArr; i++){
    alert (arr);
}
```
